

Chester Public Library Donation Policy
Approved by the Library Board of Trustees
October 9, 2012

The Director makes decisions regarding the acceptance of items to add to the Library's collection. Donated items that fill a need in the collection are added. The Library needs to be selective because of storage limitations and the labor involved in sorting so many items. As a result, the Director may refuse to accept donations. Please contact the Director to discuss items you wish to donate to the Library.

Items left on Library property without the consultation of the Library Director are not considered donations. The Library views this act as a violation of the Litter Control Law (New Hampshire RSA Section 163-B:3).

We are happy to provide written acknowledgment for all gifts, but we lack the expertise to appraise the value.
